## LETTER FROM KANSAS.

HELLE PLAINS, KANSAS, Mar. 4.—Thinking that probably a letter from this Western country would interest the readers of the I. J. and knowing well that one can only describe it as also has seen it, I send it in, trusting that it will prove interesting enough to be published.

These Western people are progressive and it is quite comical to see how "important" they feel. If a person feels that he or she is called upon to enlighten this ignorant world with a new "idea" it would take but a few days to give the public so many ideas that it would take the rest of one's life to digest them. There are no "classes" in this country; every one is on an equal footing. When I first came out the impression made on me, I must confess, was not pleasant and one could not help but contrast it with our Kentucky customs, but now I am adopting their ways and customs. There is something fascinating in living in Kansas, every one here has some tin, some circle or club, or society, in which they discuss topics of interest or importance and strive more or less seriously to recognize their relation to serious questions. All the way from the top to the bottom of our vast social structure—in the life of the wage earner, in that of the capitalist or the mechanic one footing alone is held.

Their school system is excellent, not enough can be said in praise of it. They have a corps of fine teachers and on their school ground they have a gymnasium and library, and each child is kept in touch with the whole of the world. I heard one Western woman say, "Think how the Eastern people would laugh or sneer at us, if we did not have 'lecturers' come out here at great expense and educate us." Still they use a great deal of slang and pronounce their words very flat. I don't think I have heard any one use "Mr.," they are always called by their last name; as "Brown" did so and so.

I took a trip to Wellington (shopping) and while walking along the streets passed a church; on the door was printed in large letters, "The Gates of Heaven," and right underneath in the pastor's writing, "Go Round the Other Way," but I don't for one minute presume that these Western people go to Heaven that way.

A party went from here to an Indian encampment, down in the territory. We passed a ranch on which there were 1,200 cattle. The cow boys had their tents and one of them named "Tuck" could ride anything that had not been broken, without bridle or saddle. It was marvelous to see how he held on while the horses were plunging. There were cattle laying all over the ranch dead. They had been killed in a stampede (so we were told). We resumed our journey and came to the Indians. There were five camps. They had about 60 burros and had them loaded with sacks of bread. It was made of corn meal and in little round pieces, about the size of a little marble, and just as hard. They unloaded their sacks and made a semi-circle of them, about as high as a man; in this they built a roaring camp fire. Our party took them candy and presents and got them in a good humor; then they sang and danced and some of them beat tin pans. They were all in war paint and buckskin clothes, covered with long fringe, a bow and arrow on their back and heaver tails planted in their hair. Their war dance—they danced backward and forward and yelled just like a dog—it almost frightened me to death, thinking every minute I would lose my scalp, but they were very friendly, one of them took a feather out of his hat and gave it to me. "The tall feather of an eagle—brown and white. The chief gave me an ear ring. The other gold or brass, as large as a dollar and all carved. They had silk handkerchiefs, moccasins and pottery for sale. They expected to leave for Colorado in a few days. Then we journeyed home much wiser than we started and realized that "Home, Sweet Home" was written by a life-long wanderer, who never had one.

## MT. VERNON.

Wednesday's snow showed up 14 inches in depth here and 18 at Brush Creek.

Fred Smith, only son of Postmaster W. B. Smith, died Thursday morning of membranous croup.

F. D. Sampson, of the Barbourville News, has sent us a copy of his very complete outline map of Knox county, showing the oil fields and its wells already put down. Write him.

The new county officers are discharging their duties in a satisfactory manner to the people. All infringement on the law is being carefully looked after and prosecuted without fear or favor.

Some changes are being made in the court-house. A partition is being run in the grand jury room, which will be used for county judge and attorney's offices. The old county judge's office will be used for grand jury purposes.

Two of the Mullins boys, of this place, and a young fellow named Barnes engaged in a scrap on the streets last week. No personal injury resulted, though Grant Baker lost a \$50 plate glass by a stone striking it during the melee. In the trial before Judge Lewis the Mullins were fined \$10 and costs and Barnes one cent and fixtures.

S. C. Franklin is laid up with some thing like grip. E. S. Albright, of the Signal, has been notified that he is appointed a delegate to the National Editorial Association meeting which occurs at Little Rock in April. While at Lancaster some 10 days ago we had the pleasure of again meeting our old friend, the veteran printer, Frank J. White, in the office where Louis Landrum claims to be boss. The captain had lately recovered from a severe spell of sickness and was as proud to be able to get up to the office and be with the boys as a youngster would be when presented with a pony, saddle and bridle. Long may his good health continue.

Judge McClure, whose health has been bad for the past two years, is in a very feeble condition. James Hour, Sr., is no better. Mr. Houk is one of our oldest citizens and has held every county office he ever asked for, all duties of which he faithfully discharged. He is the grand father of the editor of the Signal. Jones Fish was over from Wildie looking after his carpenter work on his recently purchased store house near the court house and his dwelling in the suburbs. Mr. Fish is a man whom our people welcome. Messrs. Joseph Evans and James Tribble, of Madison, are visiting friends at Orlando.

Mt. Vernon Telephone Exchange, on March 1st, installed a new switchboard and its patrons are complimenting the improved service. Many new phones have been added. All arrangements have been made for putting in an exchange at Livingston, which will be done as soon as weather permits for setting poles and stringing wires, then any subscriber in the county can use their phone to any other subscriber's phone in the county without extra charge beyond rental. This work is done by the independent people at low living rates, not as by the old monopoly at cut throat rates to be raised after competition is killed.

Judge R. G. Williams, whom every one favors for law and justice in the administration of county affairs believes to have discharged the duties to a better advantage for the county's interests than any other county judge for many years, has decided to locate in Covington for the practice of his profession, where he expects to find a wider field for his excellent talents. He left on Tuesday's train for that place, where his host of Rockcastle friends have no other belief than that he will not only succeed in his work, but be found at the top of the profession at no distant day; if application, work and good, hard, common sense counts for anything, and it always has.

Uncle Ashley Owens, who recently returned from a visit to relatives in Missouri, met with a big reception by his Livingston friends, his home. They met him at the train and escorted him and his venerable wife to their homestead. Relatives and friends were on hand with a band of musicians and a general good time was had. Mr. Owens is one of the old pioneers and had considerable to do with the diversion of the route of the L. & N. via Mt. Vernon from its projected route through the county. The original and cheapest line surveyed was to leave the present line half mile south of Maresburg; go down East Fork Skaggs Creek, thence on to London. Livingston and Mt. Vernon owe much to Uncle Ashley.

W. B. Lynch, of Darlington, Ind., is visiting Dr. A. B. Ewers, this place. A professor from Danville will be here within a few days to finish the term at Collegiate Institute, in place of Dr. Ewers, who has been sick for several weeks. Mrs. Dr. Ewers, who has been suffering from a fall, is much improved. Miss Ella Joplin, who has made a splendid record as substitute teacher in Col-

legiate Institute, will be retained to end of term. C. C. Edwards and wife, J. D. Pennington and two others, of Jackson county, left here Thursday morning for Stikes, Idaho, where they have arranged to make their future home. Clarence Ferguson, a boy who has been working at the depot here for the past 15 months, in the study of telegraphy and railroading, has been assigned to the night office at London.

## KINGSVILLE.

Rumor is rife of another marriage to take place ere spring is really here.

It has been blowing, snowing, raining and again blowing since the advent of March.

A Nebraska land buyer was here a few days since looking out a location with a climate suitable to his health. He left for Georgia.

The prince's train stopped over five minutes Sunday morning, but on account of late, the Sabbath, etc., there was no demonstration on the part of our citizens.

Rural free delivery is still a matter of discussion. A prominent lawyer of Stanford is making an effort toward establishing a route or routes in this section of the county.

Frank Petty, of Grant county, is visiting Clarence Dunn. Wallace Walter is ill and C. G. Baker is his substitute at G. A. Walter's store. J. E. Creighton was on a brief visit to his home folks here.

Miss Annie McKee spent last week with the family of Dr. Harvey Glass, of Somerset. Born to Mr. and Mrs. Milton Warren, a son. Mrs. Bettie Rowland, quite aged, is very ill of dropsy. James Houpe is sick.

The Cincinnati Southern has instituted a temporary office at Bowen Operator Creighton is working days, and Mr. Vallandigham, of Lexington, is holding down the night office. Talk of a depot being built there.

One of Mrs. W. R. Cundiff's little gold fish died the other day and another is quite sick, so she wants a "fish doctor" or a piscatorial physician—imported, and your correspondent wants a piano tuner and the town wants a dress maker.

The report that Meredith Francis has the small pox is false. Mr. Francis' indisposition proved to be nothing more than a severe headache, from which he has doubtless recovered. Dr. J. W. Acton's small-pox patient has been removed to Lexington and the community breathes easier. The patient in question was a Negro employed on railway work which is in progress south of the depot.

She was a most estimable, Christian woman, a devoted wife and mother and leaves a husband, five sons, one little daughter, two brothers and one sister, Mrs. Geo. R. Hardin, of Covington. The elements that enter into perfect drug service are, we believe, these: Competency, quality, courteousness and a fair profit policy. We endeavor to give all these the fullest expression. E. C. WALTON.

W. P. WALTON.

Is a Candidate for Railroad Commissioner in the 3d District, subject to the will of the democracy.

THERE is pending before Congress a bill providing for the recall and destruction of all greenbacks, treasury notes of \$5 and under and the issue in the same amount and denominations of what is called "post check money." It is proposed that the new notes shall be substantially similar in design with the present notes, with the addition of blank spaces on which any citizen can write in the name of any person to whom he desires to send the bill, and, thereupon, it becomes a check on the United States treasury, payable only to the person named in the space provided. On presentation of the note at any postoffice or sub-treasury the check note is honored by the delivery of another post check note to the payee and that in turn passes as currency, the note presented being destroyed. The advantage claimed for the post check currency is that it can be sent through the mails without danger of loss, and without the expense of purchasing a postal order or registering a letter, and the revenue derived by the affixing of the postage stamp would be larger than is now derived from the sale of postal money orders, the expense of which system is very great.

THE Lexington Democrat thus piously wails: One by one the roses fade, drop by drop the well runs dry. Hope that has sprung eternal in the Lexington breast has been dashed to the earth and there is no help in us. The Senate refused yesterday to advance the capital removal bill to its third reading and it is now as dead as a door nail. Senator Allen made a fight for the bill, making one of the best speeches of the session for it, and failing, tried to delay action, but it was love's labor lost and the vote resulted 23 to 13 against the third reading. The action is to be sincerely regretted. The people want their capital removed from the present out-of-the-way place and they want it to be located at Lexington, but the Senate refused to give them a chance and that ends the matter for the present, the more's the pity.

ADLAI E. STEVENSON, vice president with Cleveland, and Bryan's running mate two years ago, points the way to a new democratic victory by recalling how all the later triumphs of the party have been won. He lectures the Tilden platform of 1876 as a suitable model to build upon in 1904. It is as follows: "We denounce the present tariff levied upon nearly 4,000 articles as a master piece of injustice, inequality and false pretense. It yields a dwindling, not a yearly rising, revenue. It has impoverished many industries to subsidize a few. It prohibits imports that might purchase the products of American labor. It promotes fraud, fosters smuggling, enriches dishonest officials and bankrupts honest merchants. We demand that all custom house taxation shall be only for revenue."

THE Grand Lodge at Nashville decreed that Master Masons, who are engaged in selling or manufacturing intoxicating liquors will, after Jan. 1, 1903, be ineligible for membership in the Masonic lodges within the jurisdiction of the Grand Lodge of Tennessee. This rule applies not only to new members, but to those already in the order.

GOV BECKHAM, like many of his admirers, is unalterably opposed to an extra session. Let the Legislature get a move on itself during the remainder of the session, adjourn on the date prescribed and its members go away back to some remote point and be seated.

"How to be happy, though married," is the subject of a lecture soon to be delivered at Danville. Every married man in Kentucky would like to hear it and standing room will more than likely be hard to obtain.

HON. G. G. GILBERT's speech against government's policy in the Philippine Islands was so good that yesterday's Courier Journal printed it in full.

There is talk of boring for oil on the Perryville battlefield. It is not generally known that a well was sunk in that territory during the war, but nevertheless it is a fact. Squire Bottom made a contract with New York parties and the hole was 500 feet deep when the forces of Buell and Bragg met there. On the morning preceding the bloody fight, the drillers, including the head promoter, left Bottom's, where they were boarding, for the well. Nothing has since been heard of them. Repeated letters addressed to the head man in New York, brought no response. Some of the old machinery is still on the Bottom farm.

DANGER OF COLDS AND LAGRIFFE.

The greatest danger from colds and la griffe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady.

It will cure a cold or attack of la griffe in less time than any other treatment. It is pleasant and safe to take. For sale by Craig & Hocker, druggists.

G. N. Klingan, of Ewing, has caused consternation among the oil operators in Allen county by appearing at Scottsville with 99 year leases on 1,100 acres of the best oil territory in the county.

The leases were taken by Mr. Klingan's father 37 years ago.

You will never wish to take another dose of pills if you once try Chamberlain's Stomach and Liver Tablets. They are easier to take and more pleasant in effect. They cleanse the stomach and regulate the liver and bowels. For sale by Craig & Hocker, druggists.

Prince Henry visited Niagara Falls and described the natural wonder as "magnificent."

Holler went South at noon yesterday. The object of the party's trip is to make improvements and changes that will likely be for the better. It is more than likely that they will recommend that the noon Northbound passenger pass an hour earlier in order to make direct connections for Indianapolis and other cities.

THE people of this community have a rare treat offered them James A. Tate, of Nashville, secretary of the National Prohibition Committee, and well known as one of the great leaders of the prohibition party, is to speak at Walton's Opera House on Tuesday evening next, at 7:30. THE Buffalo Oil Co. gave us an order this morning for several thousand handsome circulars, to be printed in colors, and which will be daisies when we get through with them. Stock in this company is selling rapidly and you had better put in your bid if you want some of it.

If the schedule of No. 24, the Northbound passenger is changed so as to make that train arrive here an hour earlier, as is talked of, it will be of great benefit to Stanford. It would give nearly two hours between trains, enabling our mountain friends to do lots of trading here. Then too it would connect at Junction City with the Q. & C. for the South, a convenience we have not enjoyed for years. Another advantage: The train would get to Louisville about 3 o'clock, giving five or six hours for persons wishing to do business in that city and return at night. The proposed change is a good one, we think.

The following letter was received by R. L. Slade, general organizer of the Endowment Rank, K. of P., from Mrs. Pauline M. Bremer:

"Please accept my most grateful thanks for the prompt settlement on the certificate held by my late husband, E. M. Bremer, of \$1,000, who died Feb. 5, 1902. I am also indebted to your efficient secretary at this place, Mr. Barnes Wearan, for his kindness in preparing the proofs of death. I have nothing but praise for the rank and the order, of which my husband was an enthusiastic member."

HOW TO CURE THE GRIP.

Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts any tendency of the grip to result in pneumonia, which is really the only serious danger. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Cancer. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Cancer being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J.
